

Inspiration

Robert Davidson – Clip 3

There are many things that inspire me. For example when I hosted my first four day feast in Massett I called it ...*Tribute to the living Haida* and that inspiration came from my going to a very dear friends funeral. I was like everybody else [there] speaking accolades [about] him at his funeral. I was thinking “okay why can’t we talk this way when the person’s alive?” That is what helped me tocommit to hosting a feast so we could celebrate life, celebrate ourselves.
