

Bill Vazan - Clip 13

Order from Chaos

Imposing order on chaos, I think we all do, we have to, society, civilization means order, one way or another... and even in art works it comes about that way. You have to have some sort of organization, direction, and so my work which has a very strong sense of that... has that also... and is part of that general tendency in all of us to give some sort of order to chaos, disorder etc...
